DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Objections

2. Claim 18 is objected to because of the following informalities: The third line after "forms" applicant states "...a the third layer..". Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation

Art Unit: 1751

under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 1-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jacques Kamiel Thoen et al (6,548,473).

Jacques Kamiel Thoen et al disclose a multi-layer detergent tablet having both a compressed and non-compressed portion comprising, in the non-compressed portion of said multi-layered tablet, at least 0.01% of a surfactant (col. 14, lines 54061) and in particular anionic surfactants such as linear alkyl benzene sulfonate (col. 21, lines 32-42). Jacques Kamiel Thoen et al further disclose the inclusion of builders in an amount from 10-80% by weight (co. 27, lines 41-50) and the at least one non-compressed portion of the detergent tablet is equal to or less than the compressed mold portion of the tablet (col. 51, lines 11-25).

Jacques Kamiel Thoen et al do not specifically teach that said phase is a viscoelastic phase having storage modulus of between 40,000 and 800,000 Pa and a phase shift in the range of 0 to 30 degrees Celsius.

It would have been obvious to one of ordinary skill in the art to expect the compositions of Jacques Kamiel Thoen et al to comprise a storage modulus or phase shift as claimed in the non-compressed layer because Jacques Kamiel Thoen et al teaches the use of alkyl benzene sulfonates as surfactants that may be used in the non-compressed phase of the tablet composition and the skilled artisan would expect similar

properties, in the absence a showing to the contrary. Furthermore, the court held "it is not necessary in order to establish a prima facie case of obviousness . . . that there be a suggestion or expectation from the prior art that the claimed [invention] will have the same or a similar utility as one newly discovered by applicant," and concluded that here a prima facie case was established because "[t]he art provided the motivation to make the claimed compositions in the expectation that they would have similar properties." In *re Dillon*, 919 F.2d 693, 16 USPQ2d 1901 (Fed. Cir. 1990), cert. denied,
